Idaho Plumbers and Pipefitters Pension Plan

A participant's accrued benefit is 1% of the contributions made to the plan on his/her behalf. For this purpose, Supplemental Contributions are not considered.

Participants with at least five years of service are generally eligible to retire beginning at age 62.

Participants may elect to retire between ages 55 and 65; however the accrued benefit may be reduced to take into account the participant's age at retirement. The Plan also provides disability retirement and pre-retirement death benefits for participants who qualify.

The accrued benefit for unmarried participants is paid as a life annuity. For married participants, the accrued benefit is paid as a 50% joint and survivor option. Participants, with the consent of their spouse (if applicable), may elect an optional form of payment.

There were no modifications to the benefit formula during the 2014 - 2015 Plan year. For a full description of the benefit formulas, please refer to the Plan document or Summary Plan Description.
